

ma WebCenters®

Five Reasons

Why

Turn over to learn why...

All Inclusive

- The maWebCenters® solution provides high-quality, eCommerce-ready Web sites to small and medium-size businesses who want to market themselves in the growing online marketplace.
- We provide our customers with a comprehensive set of tools to achieve their online objectives and make a Web site work for them.
- Best of all, the maWebCenters® solution offers a complete online marketing system that requires no complicated technical knowledge.

Simplicity

- Business owners and experts agree, the most popular and effective way to advertise a business is online. But with all of the options for your business on the Internet, including an eCommerce site, social media sites, blogs, and email newsletters, it can be overwhelming!
- The maWebCenters® solution allows a business owner or manager to easily maintain Web site content, utilize the power of social media sites, optimize the site for enhanced search engine rankings, conduct email marketing campaigns, and engage in customer relationship management.
- All of these functions are available in a single administrative area, instead of a variety of complicated user interfaces.

Support

- Once your business Web site is launched, you are NOT on your own. Our award-winning Customer Care team will continue to support your Web site and answer any questions you may have.
- Customer Care is included with the maWebCenters® solution. There is no need to hire a Web designer or consultant for hundreds of dollars an hour to maintain your site.
- You'll receive a full set of tools to update and maintain your site, and maWebCenters® will provide unlimited support related to using the tools.

Upgrades

- maWebCenters® is committed to staying on the cutting edge of technology.
- Unlike other companies, maWebCenters® does not charge customers extra when upgrades and improvements to the system are released.
- And we give businesses the chance to reach the growing number of users going online and purchasing products with smartphones and tablets by offering free mobile sites.

Partnership

- maWebCenters® considers relationships with its customers to be a partnership with their business.
- By continuing to improve our technology and providing outstanding Customer Care support, maWebCenters® demonstrates its commitment to re-earning a customer's business every month.
- Contact the representative you've been working with or our Customer Care team today to learn more.
